

About the Workshop

Jamovi is a free statistical software built on the R statistical language. Unlike R, it does not require programming knowledge. Instead, Jamovi provides a simple, menu-driven interface similar to SPSS, making it easy for anyone to perform statistical analyses without writing code. It is freely downloadable, lightweight, and designed to make data analysis accessible to students, researchers, and professionals alike.

This workshop will introduce participants to Jamovi and equip them with practical skills for real-world data analysis. Through interactive sessions and hands-on exercises, you will learn how to effectively use Jamovi's features to conduct a wide range of statistical applications with confidence.

Workshop Highlights

The workshop will cover:

1. Getting Started with Jamovi: Key features, advantages, and user interface walkthrough
2. Data Management: Importing, cleaning, and organising data
3. Descriptive Statistics: Summarising the data
4. Hypothesis Testing: Conduct hypothesis testing and interpret the results
5. Linear Regression: Model fitting, interpretation, and regression diagnostics.

Target Participants

Postgraduate students, current and prospective research scholars, and academicians who are interested in learning and applying JAMOMI for data analysis.

💰 Registration Fee:

✅ ₹300/- (Rupees Three Hundred only) (Non-Refundable)

LAST DATE OF REGISTRATION: OCTOBER 24 2025

Contact Details:

Dr. P. Mohanachandran Nair : 9446415618

**Demography and Health Research
Centre (DHRC)**

In collaboration with

**Department of Demography
University of Kerala**

Organize two days(27 & 28 Oct 2025)

Time: 10:00 AM to 03:30 PM

**TRAINING WORKSHOP ON
“DATA ANALYSIS USING
JAMOMI SOFTWARE”**

**Venue:
Department of Demography**

RESOURCE PERSONS

- **Mr. Harikumar P**
Chair, DHRC.
- **Dr. Sandeep G**
Assistant Professor,
Dept. of Demography
